Jahidul Hasan Hemal

Python/C++ Programmer | Software Engineer | Data Scientist | Open Source Enthusiast | *nix Lover

I am a Software Engineer with extensive experience in system administration. I have played with a lot of tools and toys. However, I would call these my primary skills: Python: Django, DRF, Flask, Scrapy Javascript: vanillaJs, React I know git and work on Linux. I also have Linux running using WSL in Windows. I am also a big fan of Docker. I have working experience with MySQL, PostgreSQL and NoSQLs as well. I will not only build your app but also deploy it to cloud providers like heroku, aws, rackspace or any VPS.
